

# GLOVES

## MicroFlex Diamond Grip Gloves

**MED PART # XMF300M**

**LARGE PART # XMF300L**

**X LARGE PART # XMF300XL**

### Description:

- \* Powder-free glove leaves no residue, helping to reduce the risk of spreading bacteria compared to a powdered glove
- \* Latex provides better elasticity than nitrile, chloroprene, or vinyl, and better puncture resistance than vinyl
- \* Glove is textured along the length of the fingers for improved grip compared to a glove with textured fingertips, and it is thicker at the fingertips for added protection
- \* Palm thickness is 6.3 mil and finger thickness is 7.9 mil.
- \* Chlorinated glove allows for quick donning, particularly in wet environments, compared to a non-chlorinated glove

## MicroFlex Surpeno Gloves

**MED PART # XSU690M**

**LARGE PART # XSU690L**

**X LARGE PART # XSU690XL**

### Description:

- \*Soft and durable nitrile formulation for improved elasticity and greater comfort
- \*Gradient dipping provides added protection where you need it most, Interior polymer coating makes glove easy to don
- \*100% nitrile to alleviate the potential for adverse reactions associated with latex protein
- \*Textured fingers allow for reliable grip in wet and dry conditions finger thickness is 7.1 mil.
- \*Strong, durable nitrile provides superior protection against a majority of chemicals.
